

SUNBELT PATIENTS STATISTICS SURVEY

Instructions

1-11) *Patient Visit is defined as:*

- A direct face-to-face encounter with a *health care provider* (see definition below), AND
 - With one or more of the following component: history taking, health screening, physical examination, medical decision making, counseling, and or risk factor reduction intervention, or administration of medical treatments or therapies, AND
 - That results in documentation in the individual's record.
 - These visits should be capable of being coded with ICD-9 or equivalent diagnostic codes.
 - Multiple services provided at the time of the visit, including those by several health care providers, should count as a single visit.
- Health care providers are responsible for the *patient visits* (defined above) and are individuals with education in medicine, nursing, dentistry or other allied health professions and may include physicians, psychiatrists, dentists, nurse practitioners, physician's assistants, medical students, interns, nurses, mental health professionals, social workers and dieticians.

Do not count phone consultations as patient visits.

Interns: If the health care provider is an intern, count these visits with the visits of his or her's supervisor or preceptor. Examples include visits to physician interns with Physicians, psychology interns with Psychologists (#8), and counselor/social work/Mental Health NP interns with their supervisors (#9), and Psychiatric interns with Psychiatrists (#10).

- 15) *Lab Tests:* This is both in-house and referred tests. For lab test panels, count each lab panel performed as one test. For example, if a CBC panel has 6 tests, one occurrence of the panel will equal one test.
- 16) *Pharmacy Prescriptions Filled/Refilled:* Include all prescriptions whether filled or refilled.
- 18) *X-ray Exams:* This is an only in-house exam. Do not include patients referred out.
- 19) *Allergy Clinic Visits:* Visits where allergy injections are administered.
- 20) *Immunization Clinic Visits:* Count the number of visits where immunizations required by the college or state in order to attend the college are administered. Do not count the number of injections. Examples include MMR, TD HepB, Rabies vaccinations (pre and post exposure) and meningitis. Also include immunizations provided by contracted providers such as VaccessHealth.
- 21) *Travel Clinic Visits:* Count the number of visits where immunizations for travel are administered. Do not count the number of injections. Examples include HepA, HepB, Typhoid, Meningitis, Yellow Fever and Cholera.
- 22) *Workers Compensation / Occupational Medicine Visits:* Visits where charges will be billed to workers compensation insurance or visits to Occupational Medicine specialists. Multiple services provides at the time of the visit, including those by several health care providers, should count as a single visit.
- 23) *Visits by students:* Count visits by individuals who are permitted to use the SHS because they are currently, will be or have been a student at your institution. Include visits by students who are not enrolled during summers but are permitted to use the SHS.
- 25) *Visits by other:* Count visits by anybody else. Include dependents, campers and campus visitors.

Penetration Rate (percentage of discrete students who use the health service)

A discrete student is a student who used the health service at least once. Thus if student A used the SHS 30 times, student B used it 5 times, and student C used it once, that will be 3 discrete students.

If there are any questions contact:

David Rousmaniere
Student Health Center, Univ. of North Carolina at Charlotte,
9201 University City Blvd, Charlotte, NC 28223
Phone: 704-687-7418
FAX: 704-687-6611
E-mail: drousman@uncc.edu

Nbr Discrete Students
Number of individual students who used the health service at least once.

Penetration Rate
The percentage of enrollment that used the health service. For instance, a rate of 42% means 42% of the individual students at the university used the health service at least once.

NOTE

Data is for comparison use only.

The data was submitted to and entered at the coordinator's site without verification. The coordinator cannot vouch for accuracy.
